Dear Mr. Flora:

A formal monitoring review of the Wagner-Peyser Program Job Order component has been completed. A total of 25 job orders, to include job development and H2B, have been evaluated and found to be in compliance with the federal; state and local guidelines. There were no findings or observations noted.

Thanks to you, Mrs. Copeland and your staff for the improved work that has been done in regards to the data entry and management of job order services.

Respectfully,

Mattie L Davis
