MONITORING EXIT SUMMARY

The programmatic quality assurance review of the Wagner-Peyser Program, Job Seeker Component, for PY 2015 -2016 has been completed. The sample size consisted of forty-six Employ Florida Management (EFM) computer-based files. The review revealed that the Employ Florida Job Seeker files monitored for service codes 123; 880 and 882 contained sufficient documentation to support all case management elements and that the data recorded in EFM were determined to meet the DEO Wagner-Peyser (EFM) documentation requirements.

No Findings or Other Noncompliance Issues found.

The review sample included eleven Job Development (service code: 123) contacts and it was noted that five of the contacts resulted in employment for several Veteran Job Seekers.
